

Open Nebraska (ONE)

Course Marking

Open Nebraska is a course marking program created to help students find courses with affordable content as they select and register for specific course sections. Course attributes in MyRed help students find courses with no cost, low cost, and reduced cost materials such as Libraries-licensed materials, Inclusive Access titles and Open Educational Resources (OER).

Inclusive Access materials are managed through the Campus Bookstore or the Unizin Engage programs and will be automatically marked. Instructors or departments do not need to submit a request for a course using these materials for them to be added. To request a course marking attribute for low (under \$40) or no cost (relying on OER or Libraries-licensed materials) materials courses, submit a request using this GO URL: go.unl.edu/oneform.

Instructors or their representatives will need to submit this form for the upcoming term by approximately the six-week mark of the current term for maximum student visibility during the class search and registration process. Marking a course with OER attributes with this form will not transfer to the same class and section in future semesters. Instructors or their representatives must use this form to mark all their courses prior to every new semester.

Course Attributes:

No Cost Materials

Course materials are included at no additional cost to the student. No book purchase is required.

Low Cost Materials

Course materials for this course cost students less than \$40.

Reduced Cost Materials

Course materials for this course cost students more than \$40, but less than the original retail price.

Students can see the Open Nebraska options under Class Attributes in MyRed while doing a Class Search. Here is a link to the page in the Student Guide to Inclusive Access that shows them how to search for courses under the Open Nebraska program. <https://go.unl.edu/onesearch>.
