

The following three simple steps are required to register your clicker for use on UNL campus. Because UNL integrates the use with Blackboard, it is ***NOT required*** that you register through the i>Clicker website.

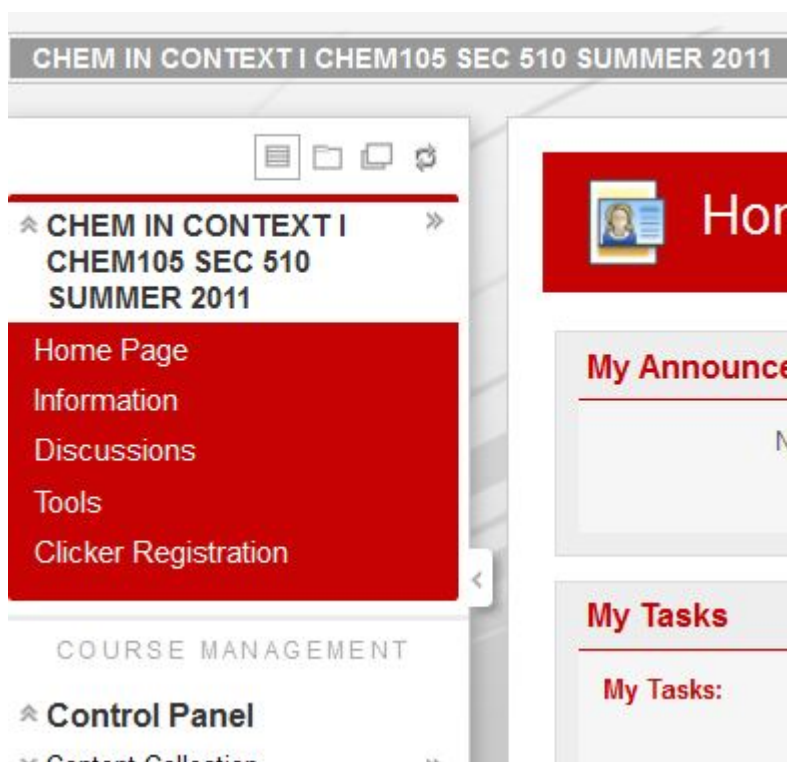

Step 1.

Select the course listing in Blackboard for which you will be using the clicker:

Step 2.

Click on the registration tab that your instructor has included on the course page. If this link, or one with a similar name is not available, please notify your instructor:

Step 3.

Enter the RF ID located on the back of your clicker in the field provided, and complete the registration process. Your clicker is now linked to your student data and will be available to the instructor for class roster functions.
